SUMMARY

I am a Computer Science and Applied Informatics graduate from the University of Macedonia (2020-2024). I have experience building websites and developing software projects using modern technologies. I'm a fast learner who enjoys solving problems, improving my skills, and staying up to date with the latest trends in web development and programming. My goal is to grow as a developer, contribute to innovative projects, and continuously expand my knowledge in both front-end and back-end technologies.
